CLARKE HISTORY

Clarke University has moved into the century with a long and impressive tradition of excellence in education. Established in 1843, the university is named for an Irish woman, Mary Frances Clarke, who founded a congregation of religious women, the Sisters of Charity of the Blessed Virgin Mary (BVMs). When the community arrived in the river town of Dubuque in 1833, it was pioneer territory; though the city has changed radically in succeeding years, its vibrancy and Mississippi River beauty continue.

The antecedent institution of Clarke University, St. Mary's Academy, was established in 1843 by BVM sisters, three years after Iowa became a state. After occupying several locations in its early years, the school was re-named Mount St. Joseph Academy and moved permanently in 1881 to its present location. The academy became St. Joseph College, a liberal arts institution, in 1901 and was chartered by the State

of Iowa in 1910. First accredited by the North Central Association of Colleges and Secondary Schools in 1918, the institution was named Clarke University in 1928.

In 1884, Mary Frances Clarke wrote to her community of sisters almost all of whom were teachers: "Let us...keep our schools progressive with the times in which we live...In teaching, we must...endeavor to make (students) think." These directives of over a century ago have continued to inspire a faculty and staff of dedicated women and men to offer a challenging and growth-producing education to all Clarke students.

Academic excellence has persisted as a goal in a variety of new programs and degrees that have been developed over the years. Graduate studies were added in 1964 and evening programs for non-traditional students began in 1968. In 1979, the university became a co-educational institution, admitting both women and men in full-time undergraduate programs.

On May 17, 1984, a devastating fire destroyed four historic campus buildings. Undaunted by the disaster, students hung a banner the next day proclaiming "Clarke Lives!" This spirit sustained the university community through a period of vigorous rebuilding. In October 1996, a dedication was held for a new library, music performance hall, chapel, campus store, administrative offices, and central atrium, which now constitute the core of the campus. In more recent years additional buildings were added to accommodate a growing student population: a recreation and sports complex in 1994; a student apartment building in 1998; and the Student Activity Center in 2000.

Throughout its growth and change, Clarke University has been "progressive with the times." As new programs have developed, faculty has continued to challenge and support students, who are the heart of the institution, in their intellectual and personal growth. In an institution known for its long tradition of excellence in education; students, faculty and staff work together to maintain and strengthen that heritage. Clarke changed its name to Clarke University on August 1, 2010.

Residence Life

Living in campus residence halls plays an integral role in growing and developing emotionally, intellectually, and socially while at Clarke. This living opportunity provides potential for learning to how balance your rights as an individual to act, speak, and live as your conscious dictates, with your responsibilities to create a respectful, engaged, courteous living environment as a member of a community. When you sign your Housing Contract you agree to abide by a certain set of expectations that are necessary for the safe and smooth operation of the halls, and to the development of an environment conducive to learning. Information on specific and general policies is listed in other sections of this handbook. You also accept a certain degree of responsibility for your community. We ask you to respectfully voice your objections when others infringe on your rights, to work with staff and other residents to establish the necessary norms and standards for living together, and to assist staff in their efforts to hold residents accountable to those norms and standards which you are expected to help create and live by.

Residence Life Staff

The residence halls are staffed with assistant directors (ADs) of residence life, senior managers, and resident assistants (RAs). RAs are student staff that live on the floor. They have been selected based on their leadership characteristics and knowledge of the resources on campus. If you need assistance, or have a concern or suggestion, your RA is a good person to see. RAs are responsible for facilitating a community atmosphere, ensuring that community standards are upheld, and residents are encouraged to take responsibility for their actions. RAs also act as a referral agent for students to other campus resources.

Senior Managers are undergraduate student staff who work closely with an RD to assist in the community development, safety and security, mentoring and growth of the RA staff, and administrative processes that are necessary in the creation of a positive living and learning environment.

RAs are supervised by the ADs who are professionally trained to work with students. As leaders of their residential communities, RDs wear many hats—educator, counselor, manager, disciplinarian and problem solver. You will have the opportunity to meet your AD during the year. He or she manages all services and programs for your residence hall. Each AD has an office located in the residence hall. Residents should stop by the office with maintenance or housekeeping concerns, key problems, suggestions and ideas, or to meet with the RD.

Hall Council

Hall Council consists of student leaders living in campus residence that want to become involved with the governance of the hall community. Hall Council's primary responsibilities are to plan campus events, increase awareness, and make recommendations to improve the on campus living environment. The meetings are open for all students to attend.

- xxiv. **Noise/Quiet Hours / Courtesy Hours:** Our goal is to provide residence halls where a student's right to sleep and study is given priority. During periods designated as quiet hours, no noise should be audible outside the closed doors of a student's room. On the nights that precede class days, quiet hours will begin at 10 p.m. and will continue until 10 a.m. the next day. On those nights that do not precede class days, quiet hours will begin at midnight and will continue until 10 a.m. the next day. As a group, wings/floors may decide to extend quiet hours. Quiet hours remain in effect from midnight on Friday preceding final examinations until the conclusion of the examination period. Students found violating quiet hours may be required to leave housing immediately. Courtesy hours

are defined as times when activities that might produce noise are limited out of courtesy toward other students. Courtesy hours are 24 hours a day, seven days a week. Residents should confront violations of this policy first. If unsuccessful, contact the RA on duty. If you bring a stereo to campus, you should bring headphones as well.

Academic Advising

Academic advising is a learning process designed to assist students in setting and achieving their educational goals. It provides students with opportunities to better understand the purpose of a university education and to plan an academic program that will give them the knowledge, values and skills necessary to be lifelong learners and competent professionals in their chosen careers.

Academic advising at Clarke is personalized and takes into account the needs of each student. Faculty academic advisers guide students in designing a quality academic program that meets individual life goals. The adviser guides the student's learning experiences through course and career planning and program review, and makes referrals to the appropriate campus services as necessary.

Clarke students are assigned a faculty adviser depending on their major area of interest. Although some group advising sessions may be held to clarify academic policies, programs and procedures, all advisers

meet with individual students and offer guidance as they progress toward graduation. Ultimate responsibility for academic progress and decision making resides with the student.

FINANCIAL AID

The financial aid office is located in the Haas Administration Building, on the second floor of the Atrium. The staff will assist students to plan the financing of their education at Clarke University. Scholarships, grants, loans and work programs can be reviewed and applications obtained.

Satisfactory Academic Progress Statement (revised 07/01/11)

Students receiving Title IV financial assistance are expected to progress satisfactorily toward degree completion. The following minimum standards have been established in accordance with regulations published by the United States Department of Education, (34 CFR Part 668).

This policy affects the following financial aid programs:

- Federal Parent Loan for Undergraduate Students (PLUS)
- Federal Teacher Education Assistance for College and Higher Education Grant (TEACH)
- Federal Graduate PLUS Loans
- Federal Direct Subsidized Stafford Loan
- Federal Direct Unsubsidized Stafford Loan
- Federal Perkins Loan
- Federal Nursing Loan
- Federal Work-Study
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Iowa Tuition Grant
- Iowa Grant
- All institutional programs

The satisfactory academic progress of a student will be measured both quantitatively and qualitatively.

- **Quantitative Measurement:** Students must complete a degree or certificate program in no more than 150 percent of the average length of the program. For example, students are required to complete 124 credit hours for the baccalaureate degree. An institution may allow a student 150 percent of the time normally required to complete the degree. Students will be allowed to attempt up to 150 percent of the credit hours required, for a total of 186 hours as long as they are making satisfactory academic progress. If it is determined early that the student will not be able to complete his/her degree within the 186 hours, the student will become ineligible for aid at the point of this determination. After 186 hours have been attempted (or earlier if the student will not be able to complete the degree requirements) the student will lose eligibility for federal, state, and institutional funds. Transfer students are subject to the same credit hour requirements. Credits transferred to Clarke University will be counted in the 186-hour limitation. Credits transferred to Clarke University will be counted in the 186-hour limitation. Students must complete at least 67% of the credit hours attempted based on their enrollment status.
- **Qualitative Measurement:** The qualitative measurement of satisfactory academic progress for federal, state and institutional aid will be done in accordance with the minimum cumulative grade point averages already established by the federal government. Students must maintain a cumulative grade-point-average of 2.00 or above. Grades are not rounded up.
- **Measuring Progress:** The academic progress of financial aid recipients will be measured at the close of each payment period once all final grades are posted. The financial aid office will notify students who do not meet the credit hour or the cumulative grade-point average requirement. The letter they receive will outline the expectations of the federal government and specify the date by which they need to be in good academic standing in order to continue receiving financial assistance. Students will be put on warning and will have one academic semester in which to achieve good academic standing. If the student is not making satisfactory progress by the end of this time, the student will no longer be eligible for any federal, state, or institutional financial assistance without completing an appeal to reinstate their financial aid on a probationary basis. A Financial Aid Reinstatement appeal procedure is in place for students when aid is lost due to unsatisfactory academic progress.
- **Withdrawals:** When a student officially withdraws from a course, the course is not used in calculating the grade-point-average, but is reflected in the attempted hours for the semester.
- **Repeated Courses:** A student who elects to repeat a course will not have the credit hours counted twice when calculating satisfactory academic progress. A better grade, however, will be used in calculating the cumulative grade point average.
- **Non-Credit Courses:** Non-credit/audit courses do not count toward the requirements for satisfactory academic progress.
- **Incomplete Grades:** If at the end of the semester after all grades are posted, a list will be obtained from the Registrar containing the names of all students with incomplete grades. If the student is making satisfactory academic progress without the incomplete grades, no notification is necessary. However, once grades are posted, a recalculation of satisfactory academic progress will be made. At the time of the recalculation, if the student is not making satisfactory academic progress, a notification will be sent to the student that the current semester (the one in which the grades were posted) is a semester of probation. If after the current semester the student is still not making satisfactory academic progress, the student will no longer be eligible for any federal, state, or institutional financial assistance. The student may appeal using the Financial Aid Academic Progress Appeal Form.

Appeal Procedure

After a student has been notified they have lost eligibility for financial assistance, a written appeal may be made on the Financial Aid Appeal Form. This form will be submitted to the director of financial aid. This form can be found in the financial aid office. An appeal should include:

1. Circumstances which affected satisfactory completion of credit hours, or the cumulative grade point average.
2. The student's Academic Success Contract.
3. The time frame the student has developed for completing the degree requirements.
4. All appeals will be considered by the Financial Aid Appeals Committee, consisting of the vice president for student life, the dean of undergraduate studies, and chaired by the director of financial aid. Circumstances considered for an appeal include, but are not limited to: student illness, health problems of a student's family members, lack of availability of required courses, change of major,

and other situations which, at the discretion of the committee, are determined to be factors directly related to the student's inability to maintain satisfactory progress. Note: The fully completed appeal must reach the Financial Aid Office one week prior to the first day of the academic semester in which you wish to receive Title IV, State and/or Institutional aid. Late appeals will not be considered.

Clarke University Refund Policy

Change Effective August 28, 2000: The Reauthorization Bill amending the Higher Education Act was signed into law in October 1998. One of the significant changes to the Higher Education Act was in the area of refunds for students who withdraw from the institution. When a student withdraws from classes, he/she may be entitled to receive money that had been paid to the university. The university may be able to refund all or a portion of the tuition, fees, housing costs, etc. the student paid. If the tuition, fees, housing costs, etc. were paid with financial aid dollars, then all or a portion of the student's refund must be returned to the student aid programs from which the money was awarded. A student who receives a cash disbursement to assist with living expenses and then withdraws, drops out, or is expelled may be required to repay money to the aid programs from which the money was awarded. The university has designed the following policies and procedures to ensure proper accountability when a student leaves the university.

If a student **officially** withdraws from Clarke prior to completing 60 percent of the semester, institutional charges for tuition, room, board, and fees will be refunded based on the percentage of the semester that has not been completed. Financial aid awarded will be returned to the federal, state, and Clarke programs based on the same percentage. Outside scholarship or loan assistance will remain on the student account unless this creates an "over-award" situation or the donor specifically requests a refund should the student withdraw. In simple terms – if the student **officially** withdraws after completing 20 percent of the semester, the student would only be charged for 20 percent of the applicable tuition, room, board and fees and retain 20 percent of their financial aid. The refund formula calls for no refund to Title IV programs – Federal financial aid – after a student attends 60 percent of the calendar days in an enrollment period. The portion of the semester completed is based on calendar days from the first day of the semester through the last scheduled day of finals, including weekends and mid-semester breaks. However, scheduled breaks are measured from the first day of the break to the next day that classes are held. Breaks of at least five days are excluded from both the numerator and denominator in the calculation of the percentage. Below is how the formula is applied:

$$\frac{\text{\# of calendar days enrolled}}{\text{\# of calendar days in term}} = \text{Percent of earned financial aid}$$

If a student has earned 20 percent of their financial aid, then 80 percent must be returned. All parties (federal and state government, institution) will receive 80 percent of their funds back and the student will be refunded 80 percent of tuition, fees, and room and board. Percentages are always rounded to the nearest 10th. Students who do not go through the "official" withdrawal process (i.e. leave campus without filing withdrawal papers) will be deemed to have attended their last date of attendance as documented by a faculty member and will have their charges and financial aid adjusted accordingly.

A student's withdrawal date is:

- the date the student began the institution's withdrawal process or officially notified the institution of intent to withdraw; or
- the student's last date of attendance at a documented academically related activity.

Any notification of a withdrawal or cancellation and request for a refund should be in writing and addressed to the dean of undergraduate studies. The refund policy applies to students who withdraw or are expelled, and refunds for these students are determined according to the following policy: The term "Title IV Funds" refers to the Federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs: unsubsidized Federal Family Education Loans (FFEL – Stafford Loans), subsidized FFEL (Stafford) loans, Federal Perkins loans, FFEL Parent Loan for Undergraduate Students (PLUS Loan), Federal Graduate PLUS Loans, Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG). It does not apply to Federal Work Study funds.

In accordance with federal regulations, when financial aid is involved, refunds are allocated in the following order: Federal Direct Unsubsidized loans, Federal Direct Subsidized loans, Federal Perkins loans, Federal Direct Graduate Loans, Federal Direct PLUS loans, Federal Pell Grants, Federal SEOG, other Title IV assistance, other Federal sources of aid, other state, private and institutional aid, and finally, the student.

Institutional and student responsibilities in regard to the return of Title IV funds unearned aid (aid awarded but not available due to the refund calculations).

Clarke's responsibilities in regard to the return of Title IV funds

1. Providing each student with the information given in this policy;
2. Identifying students who are affected by this policy and completing the Return of Title IV Funds calculation for those students;
3. Returning any Title IV funds that are due the Title IV programs.

The student's responsibilities in regard to the return of the Title IV funds

Returning to the Title IV programs any funds that were disbursed directly to the student and which the student was determined to be ineligible for via the Return of Title IV Funds calculation.

The responsibility to repay unearned aid is shared by Clarke and the student in proportion to the aid each is assessed in the process. Clarke's share is the lesser of the total amount of unearned aid; or, institutional charges multiplied by the percentage of aid that was unearned. The student's share is the difference between the total unearned amount and Clarke's share. Clarke's share is allocated among the Title IV programs, in an order specified by statute, before the student's share. After the student's share is fully allocated among the Title IV programs, any amount owed to a grant program is reduced by half. Clarke must return its share of unearned Title IV funds no later than 45 days after it determines that the student withdrew. Students return their share of unearned aid attributable to a loan under terms and conditions of the promissory note. The institution may allow the student to repay the unearned aid attributable to a grant (after the 50 percent reduction) under a payment arrangement satisfactory to Clarke's student accounts office. A student who earned more aid than was disbursed prior to withdrawal is owed a post-withdrawal disbursement. Post-withdrawal disbursements must be made from available grants before loans. Clarke may credit post-withdrawal disbursements toward unpaid institutional charges. Authorizations for current year charges and minor (approximately \$100) prior year charges remain valid for post-withdrawal disbursements; authorizations for prior year charges (greater than \$100) become invalid. Any portion of a post-withdrawal disbursement not credited to the student's account must be offered as a cash disbursement to the student (or parent in the case of a PLUS loan).

A summary of Clarke University's refund and repayment policies is disseminated to students in the Clarke University Catalog, the Clarke Student Handbook, at the Clarke Web site, and with each bill each semester. Students may receive additional information by consulting with an administrator in the financial aid office.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA), passed in 1974 and still being interpreted by the Department of Education, is a law designed to protect the privacy interests of students, not institutions. Under this legislation, students enrolled in colleges and universities have the following fundamental rights:

1. The right to inspect and review your education records within 45 days of the day Clarke University receives your written request for access. You can get the necessary form and submit your request at the Registrar's Office. The Registrar will make arrangements for access and notify you of the time and place where the records you wish to review may be inspected.
2. The right to request the amendment of your education records if you believe they are inaccurate or misleading. You may ask Clarke University to amend a record that you believe is inaccurate or misleading. This ability to amend a record does not apply to subjective types of information such as grades or evaluations unless it can be shown that a grade was recorded incorrectly. To request amendment of your education records you should complete the form available in the Registrar's Office and submit it to the Registrar. If Clarke University decides not to amend the record as you requested, you will be notified of the decision in writing and advised of your right to a hearing regarding your request for amendment. You will also be provided with information regarding the procedures for such a hearing.
3. The right to provide written consent to disclosures of personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Clarke University in an administrative, supervisory, academic or research, or support staff position (including security office personnel and health staff); a person or company with whom Clarke University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, employed in or voluntarily assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review your education record in order to fulfill his or her professional responsibility. Upon request, Clarke University discloses education records without consent to officials of any other school in which you seek or intend to enroll.
4. The right to file a complaint with the Family Education Rights and Privacy Act Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, D.C. 20202-5901 regarding alleged failures by Clarke University to comply with the requirements of FERPA.

Student FERPA rights pertain to the education records Clarke maintains on a student, not to the student himself/herself.

Certain information from a student's education record can be designated by the institution as Directory Information and may be released. Directory Information is generally not considered harmful or an invasion of privacy if disclosed. An item of Directory Information may be disclosed by Clarke University for any purpose, without the prior consent of a student, unless the student has limited or forbidden its disclosure in writing.

Clarke has designated the following as Directory Information: 1)full name, 2)campus mailing address, 3)email address, 4) home address, city and state, 5) telephone number, 6)date of birth, 7)academic program, 8)participation in officially recognized activities and sports, 9)height/weight of members of athletic teams, 10)dates of attendance, including current classification and year, matriculation and withdrawal dates, 11)expected graduation date, 12)degrees and awards received, 13)schedule of courses, 14)parent/guardian or other family member's name and city/state of residence, 15)most recent previous educational institution attended, 16)photograph, 17)full- or part-time status, and 18)class roster. Even though information is designated as Directory Information by Clarke University, this does not mean that Clarke will disclose this information, only that it may choose to disclose it.

A student may limit or forbid disclosure of Directory Information by filing a Non-Disclosure Order available in the Registrar's Office. This Non-Disclosure Order must be filed annually on or before the add/cancel date for the fall term. Students entering in terms other than the fall term must file a Non-Disclosure Order by the add/cancel date for the term in which they enter Clarke and each fall thereafter. If a student leaves Clarke with a Non-Disclosure Order in force, the order remains in force until a student withdraws it in writing. Students who enroll in terms other than the regular fall semester will be given FERPA notification and will need to file a Non-Disclosure Order by the add/cancel date for the term in which they are enrolling. Thereafter, as long as a student remains enrolled, annual notification will happen in the fall.

Addendum: Possible Federal and State Data Collection and Use

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

This may include but is not limited to any of the following: bulletin boards, verbal announcements, e-mail, and/or the telephone "voice mail." It is each community member's responsibility to be attentive to these media and to act prudently when warned.
- **Residence Halls** - Students and their guests are asked to be particularly careful about keeping exterior doors to the halls closed and locked. Interior doors to stairways and elevators are also locked to control access to living areas by unauthorized persons. For your own safety and the safety of others in the hall, you should not permit non-residents into these areas.
 - Security Awareness - It is the responsibility of appropriate staff members in various university programs to provide information to students about security procedures and ways of preventing criminal activity on campus at least once each semester.

ADVERTISING and POSTING

The following guidelines are provided in an effort to ensure the effectiveness of signs and posters on campus and the orderly appearance of bulletin boards.

- 1) Posting of signs and flyers must be confined to bulletin boards and kiosks. There may be only one poster/flyer publicizing a particular activity on each kiosk or bulletin board. Never post signs on wooden surfaces around campus.

- 3) Except in extraordinary cases, the maximum size permitted will be 14" X 22".
- 4) Posted materials must be neat and in good taste and must contain complete information regarding the activity to be advertised including the name of the sponsoring organization or

person, campus representative, or group responsible. Specifically prohibited is material that contains statements or pictures, which would be reasonably perceived as offensive or insensitive or disrespectful to an individual or group. DISCRIMINATION and HARASSMENT

Clarke University is committed to maintaining a positive working and learning environment where all members of the University community are treated with respect and dignity, free of discrimination and all forms of harassment including sexual harassment and hazing.

Policy

Clarke University does not discriminate on the basis of race, religion, gender, color, national or ethnic origin, sexual orientation or disability in its educational programs, admissions policies, financial aid, athletic, and other university administered programs. Clarke University complies with all pertinent state and federal regulations concerning affirmative action, non-discrimination and equal employment opportunity. Hate crimes will be referred to the City of Dubuque law enforcement for appropriate investigation and action.

Sexual harassment is the introduction of sexual activities or comments into the work or learning situation. Often sexual harassment involves relationships of unequal power and contains elements of coercion—as when compliance with a request for sexual favors becomes a criterion for granting work, study, or grading benefits. However, sexual harassment may also involve relationships among those of equal rank, as when repeated sexual advances or demeaning verbal behavior have a harmful effect on a person's ability to study or work. Sexual harassment may be described as including, but not limited to, sexual innuendoes, jokes, stories, pictures, and materials created or transmitted by computer which are unwelcome or make others feel uncomfortable or embarrassed, verbal or non-verbal harassment or abuse, subtle pressure for sexual activity, sexual remarks about a person's clothing or body, unnecessary touching, patting, or pinching, leering or ogling of a person's body, constant brushing against a person's body; demanding sexual favors accompanied by implied or overt threats concerning one's job or student status; physical assault and indecent exposure.

"Hazing" refers to any activity expected of someone joining a team (or to maintain status on a team) that humiliates, degrades or risks emotional and/or physical harm, regardless of the person's willingness to participate. Hazing activities are generally considered to be: physically abusive, hazardous, and/or sexually violating. The specific behaviors or activities within these categories vary widely among participants, groups and settings. While alcohol use is common in many types of hazing, other examples of typical hazing practices include: personal servitude; sleep deprivation and restrictions on personal hygiene; yelling, swearing and insulting new members/rookies; being forced to wear embarrassing or humiliating attire in public; consumption of vile substances or smearing of such on one's skin; brandings; physical beatings; binge drinking and drinking games; sexual simulation and sexual assault.

Procedure for Reporting Complaints of Discrimination and Harassment

It is the university's intent that all allegations of harassment or discrimination be investigated in accordance with the procedures set forth herein.

1. Students will be given the opportunity to meet with an advocate to discuss the matter. The advocate is a faculty or staff member designated by the vice president for student life to listen, help evaluate the options to address the concern and make appropriate referrals.
2. Students wishing to initiate a formal complaint concerning discrimination or harassment against an employee or another student of the university should notify the vice president for student life.
3. Formal complaints must be made in writing as soon as possible but not later than ninety (90) calendar days from the date of the alleged event. The complainant must include the following information: name, address and telephone number of the complainant; the nature of the complaint;

date (s) and location (s) of the alleged occurrence (s); evidence on which the complaint is based; and the redress sought by the complainant.

4. A formal complaint against an employee will be handled within the provisions of the employee's terms of employment as described in the College Manual for Trustees, Faculty, Administrators, and Staff. A formal complaint against a student will be handled in accordance with the university's disciplinary procedures.
5. Any student who is found to have engaged in discrimination or harassment will be subject to disciplinary sanctions including, but not limited to, written warning, required counseling, suspension or expulsion from the university. Assignment of sanctions related to harassment or discrimination, in which the behavior was based on race, religion, gender, color, national or ethnic origin, sexual orientation or disability, will be more stringent.
6. Any student who feels he/she is being subjected to conduct which may constitute discrimination or harassment should keep a documentary record of the offending conduct (e.g., date of each incident, what was said or done, names of witnesses).

DISORDERLY OR THREATENING BEHAVIOR

Behavior which disrupts the orderly educational or administrative operation of the university or which is coercive or threatening to the safety and well being of self or others may be subject to immediate action which could include suspension, expulsion or other appropriate action.

A student may be required to receive, at the expense of the student, a comprehensive health evaluation, including physical and mental health assessments, as deemed appropriate by the university. Documentation regarding diagnosis, recommended treatment plan and recommendations about the student's ability to attend classes and live in a residential community may be required from appropriate health professionals. In some situations, a student must agree to follow the recommended treatment plan developed between the university and the student in order to maintain student status.

ELECTRONIC COMMUNICATION

Students using university computer facilities and electronic resources are expected to conform to the Acceptable Use Policy for Campus Computer Resources found on the Computer Center page on www.clarke.edu. Failure to do so may result in disciplinary action involving loss of privileges and probation or suspension from the university.

ELIGIBILITY POLICY FOR EXTRACURRICULAR ACTIVITIES

1. Students on academic probation are ineligible to participate in intercollegiate athletics or serve in leadership positions in student organizations.
2. Academic eligibility is determined each semester. Students with a cumulative grade-point-average below 2.0 are placed on academic probation.
3. Responsibility for compliance with these regulations rests with the athletic director and the director of student activities. Names of participants are submitted to the registrar who verifies academic eligibility before participation.

FIREWORKS

Possession or use of firecrackers, cherry bombs, smoke bombs, gunpowder, and other explosive materials is prohibited because of its potential for personal injury and its disruptive impact.

FUNDRAISING

The purpose of this policy is to coordinate all Clarke fundraising efforts and to ensure that communications from Clarke to its constituents are consistent with the university's overall needs and priorities. All fundraising

efforts must support, and not compete with, the university's overall efforts to secure funding for annual operating needs, capital projects and endowed funds.

The Institutional Advancement (IA) Office is responsible for coordinating the cultivation, solicitation and stewardship of donors and, therefore, oversees all fundraising appeals to any Clarke constituents: alumni, students, faculty, staff, friends, local businesses, foundations, corporations, and parents of students and alumni. Two fundamental principles guide the IA Office's efforts:

1. That Clarke's overall interests take precedence over the special interests of individual departments, organizations, teams, clubs, or other groups; and
2. that all fundraising on behalf of Clarke must be in compliance with Sec. 501(c)(3) of the Internal Revenue Code, which governs non-profit tax-exempt organizations.

Clarke University recognizes that individual departments, organizations, teams, clubs, and other groups have need for occasional fundraising activities for the group's benefit or the benefit of designated charities; however, multiple and overlapping solicitations to the same constituents may have unintended negative consequences. All such efforts shall be coordinated through the IA Office.

I. Submission of Fundraising Proposals by Campus Groups or Individuals Any department, organization, team or club wishing to solicit Clarke's constituents must submit a completed planning form to the IA Office usually no later than two months before the planned solicitation. The only exception to this is when a department, organization, team or club would like the IA Office to incorporate their request into the university's direct mail or phonathon calendar. In these instances it is appropriate to give the IA Office five months notice. Completed forms can be sent electronically to development@clarke.edu or by campus mail to MS 1724.

A. Campus Activities Needing Institutional Advancement Approval and/or Involvement

1. Raising money for external groups and organizations
2. Raising money for internal groups and organizations
3. Soliciting donations of any kind from external groups

B. Contents of the Planning Form

1. Department/Organization/Team/Club/Group making request
2. Recipient of financial/in-kind support
3. Purpose of support (what the funds will be used for) and total cost associated with the project
4. How project relates to strategic initiatives
5. Timeline of proposed fundraising initiative
6. Targeted group of prospects (i.e. alumni, faculty/staff, friends)
7. Number of students, faculty and/or staff that will benefit from this fundraising initiative
8. Additional sources of funding if goals are not met through this fundraising initiative
9. Outcomes to be achieved by this activity

C. Exclusions from Policy

This policy does not prohibit or limit in any way fundraising efforts by departments, organizations, team or clubs that take the form of advertising in publications or programs; car washes; camp fundraisers, sales of baked goods, trinkets, apparel items; ticketed performances; personal chore services, etc., in which the buyer of such goods or services receives a tangible benefit as a result of the transaction. Because of the Internal Revenue Service (IRS) guidelines, the university cannot issue gift receipts for these transactions. However, student organizations wishing to take part in these types of activities must follow the Student Organization Fundraising Guidelines set forth by the Student Life Office. Please complete the form available at: http://www.clarke.edu/media/files/Student_Life/fundraisingform.pdf.

Please note the IA Office is responsible for securing an annual raffle license on behalf of the university. For questions concerning exclusions, please contact the IA Office at 588-6405. For questions concerning Student Organization Fundraising Guidelines, please contact to Student Life Office at 588-6313 or visit the Student Life portion of the Clarke University Web site. This policy also does NOT include public benefit events. Any plans for benefits must be reviewed and approved by Clarke University administration. The university does not support benefit events on behalf of individuals. Fundraisers for organizations will be taken by the appropriate Vice President to Cabinet for approval.

II. Approval Process and Next Steps

Requesters submitting fundraising proposals to IA will be contacted within one week of submitting their request to either be notified of the IA Office's decision or be asked to submit additional information regarding the project. Decisions will be based on the university's existing fundraising activities, the number of students, faculty or staff that will benefit from the project and the outcomes to be achieved by this activity. Once approved, the following guidelines will be followed:

1. The IA Office has final approval over all prospect lists.
2. All solicitation letters must be directed to the IA Office so that gifts may be processed in accordance with IRS guidelines.
3. The IA Office will review all written materials prior to being sent to prospects.
4. Gift receipts and thank you letters will be the responsibility of the IA Office; however, the IA Office is happy to provide a list so that those receiving the funds or in-kind donations may thank donors as well.
5. Prior to solicitation, the IA Office will work with the department, organization, team or club and the Business Office to ensure funds received through the fundraising appeal are deposited in the correct account.

GAMBLING

Except in cases of lotteries and raffles held in conformance with Iowa statutes and approved by the vice president for student life, gambling on campus in any form is prohibited.

INSURANCE

All Clarke University students are required to have health insurance. Clarke offers a health insurance plan through a local insurance agent. Contact the student accounts office for more information.

MISSING PERSON POLICY

This policy establishes procedures to be followed at Clarke University in the event a student is reported missing and of the option to provide confidential contact information for a person to be notified in the event the student is officially reported as missing as required by the Higher Education Act of 2008.

- If a student is suspected to be missing the information should be reported to the Vice President for Student Life.
- The Vice President for Student Life, in cooperation with the Office of Safety & Security and other appropriate staff, will initiate an investigation into the welfare of the student. This investigation will include a good faith effort to make contact with the student. Campus Safety will gather all essential information about the student from the reporting person and from the student's acquaintances (description, clothes last worn, where student might be, who student might be with, vehicles description, information about the physical and mental well being of the student, class schedule, recent photograph, etc.). If the actions are unsuccessful in locating the student or it is apparent immediately that the student is missing, Campus Safety will contact the Dubuque Police Department to report the student as a missing person and they will take charge of the investigation.
- Each resident student will be informed and given the opportunity, during the process to check-in to the residence hall, to provide confidential contact information to be used in the event that student is determined to have been missing for more than 24 hours. This information will remain in effect until changed or revoked by the student. We will also contact parents and any other emergency contacts provided by the student as necessary.

For purposes of this policy, a student may also be considered to be a "*missing person*" at any time the person's absence is contrary to his/her usual pattern of behavior and unusual circumstances may have caused the absence. Such circumstances could include, but not be limited to, a report or suspicion that the missing person may be the victim of foul play, has expressed suicidal thoughts, or is in a life-threatening situation. (April 2010)

NOISE

Obscene, violent, or excessively noisy behavior is prohibited anywhere on the campus and off-campus at university sponsored events.

Snow Removal

To facilitate the removal of snow from Clarke University parking lots, special parking restrictions will be implemented. These restrictions will be announced to those affected by voice mail, e-mail, or other appropriate means. Clarke University reserves the right to ticket and tow, at the owners expense, any vehicles that do not comply with snow removal restrictions.

SEXUAL MISCONDUCT

A. General Policy

Sexual misconduct is defined as a situation in which an individual, the complainant, is forced, threatened, or coerced into sexual contact against his or her free will or without his or her consent. It includes but is not limited to, forced or coerced intercourse also known as “date rape” or “acquaintance rape.” Sexual assault and rape are criminal offenses, and should be reported to the proper authorities.

Sexual misconduct includes having sexual contact with a person while knowing or having reason to know that the person was incapacitated by drugs, including alcohol or by other means.

Sexual misconduct by any student member of the campus community is a violation of accepted student behavior that can lead to administrative and/or campus judicial action. Students may be subject to both criminal prosecution and campus disciplinary action.

All students have a right to study and live in an environment that is free from sexual or physical intimidation. All women and men have the right to be treated with respect at all times.

B. The Sexual Assault Victim / Survivor’s “Bill of Rights”

The following “Bill of Rights” embodies the general goals and aspirations of the university toward a safe and habitable environment for all, free from sexual intimidation or misconduct.

1. The right to have any and all reported sexual misconduct treated with seriousness; the right of each party to be treated justly and with dignity.
2. The right of victims to have a claim of sexual misconduct investigated and adjudicated through campus disciplinary action; the right of victims to full and prompt assistance by appropriate campus personnel in notifying duly constituted criminal and civil authorities in the City of Dubuque.
3. The right to be free from pressure from campus personnel to suppress the sexual misconduct charge or to minimize its seriousness as judged by the victim/survivor.
4. The right of the victim/survivors to report the alleged misconduct without the suggestion that victims are somehow responsible for the commission of the crime against them; or that they were contributory negligent by assuming the risk of being assaulted by reason of circumstances of dress or behavior; or that they or the university would incur unwanted publicity.
5. The same right as that accorded to the accused to an adviser and the ability to call witnesses, and the right to be notified of the outcome of such proceedings.
6. The right to full and prompt cooperation from appropriate campus and city police personnel in obtaining, securing, and maintaining evidence (including a medical examination) as may be necessary to sustain a claim of criminal sexual assault in subsequent legal proceedings.
7. The right to be advised of and assisted in exercising any options, as provided by city and federal laws or regulations, with regard to testing sexual assault suspects for communicable diseases and the concomitant right to be notified of the results of such testing.
8. The right to on-campus counseling at the Counseling Center or referral to appropriate community-based services.
9. The right of the victim/survivor to be assured that the necessary and reasonable action will be taken to prevent any unnecessary and unwanted contact with alleged assailants, including relocation of the victim to a safer alternative housing and/or adjustments in class scheduling.
10. The right of victims and all students to expect that campus security and student life policies and personnel be committed to the active pursuit of an environment free from sexual intimidation or misconduct.

Clarke University recognizes that both male and female students possess the above rights and can call upon all offered services; each student also has the concomitant obligation and responsibility to educate him or herself about appropriate security precautions and measures to be taken to minimize the risks of sexual assault. The university encourages students to lock their residence hall rooms, avoid underage and excessive alcohol consumption, and participate in programs offered at the university on sexual assault prevention and safe living in a community environment. (Approved, April 1997).

DISCIPLINARY PROCEDURES

A copy of the Disciplinary Procedures is available from the student life office or at on-line at <http://www.clarke.edu/students/studentlife/procedures.pdf>.

If it is alleged that the student is a threat to the safety or well-being of self, other students, faculty, staff or university property he/she may be suspended from school or otherwise disciplined by the president or her/his representative.

A student may be required to receive, at the expense of the student, a comprehensive health evaluation, including physical and mental health assessments, as deemed appropriate by the university. Documentation regarding diagnosis, recommended treatment plan and recommendations about the student's ability to attend classes and live in a residential community may be required from appropriate health professionals. In some cases, a student must agree to follow the recommended treatment plan developed between the university and the student in order to maintain student status.

A record of disciplinary action is kept on file in the student life office for five calendar years from the student's termination date from the university. Sanctioning is progressive during the student's enrollment at the university.

POLICIES ON ALCOHOL AND OTHER DRUGS, INCLUDING TOBACCO

Clarke University strives to maintain an environment that promotes the health and safety of the community and the responsible choices and behaviors of its members concerning the use of alcohol, drugs and tobacco. The university expects students and their guests to understand the spirit of the policy, which is based on a desire for reasonableness, discretion, and consideration for others.

Alcohol and other Drugs

Clarke University student events and activities are alcohol-free including those held off-campus. Students of legal drinking age residing in Mary Frances Hall, the Catherine Dunn Apartment Building and graduate student housing (if all residents of an apartment/room are 21) are permitted to possess or consume alcoholic beverages on campus only within their private residence hall rooms/apartment. Consumption and possession of alcoholic beverages will not be permitted in Mary Benedict Hall or Mary Josita Hall, nor on the campus, dining areas, athletic fields, Kehl Center, Student Activity Center, parking lots, classrooms or administrative buildings, nor in those areas of Mary Frances Hall or the apartment building that are open to the public, such as lounges, and corridors.

The following outlines the risks associated with alcohol and other drug abuse and the University response to student alcohol and other drug abuse.

The risks associated with the use of illicit drugs and the abuses of alcohol are numerous and include physical and mental impairment, emotional and psychological deterioration and devastating effects on family and friends. There are obvious risks such as suffering a hangover, being charged with driving under the influence or while intoxicated, and sustaining or causing personal injury. There are a number of less obvious risks associated with alcohol and other drug abuse that students might not realize, including:

- Poor academic performance
- Poor job performance
- Poor social interactions
- Unwanted and inappropriate sexual activity

- Sexually transmitted diseases, including HIV / AIDS
- Pregnancy
- Jeopardizing future career prospects, (e.g., licensure in professional fields and employment with the federal government)

In addition, alcohol and other drug abuse puts the user at considerable health risk, which can include nausea, vomiting, cancer, liver damage, elevated blood pressure, psychotic episodes, hallucinations and, in some cases, death. In addition to the risk to the abuser of illicit drugs and alcohol are the risks to fellow classmates, the public and to unborn children.

All students, whether on or off campus, must adhere to local and federal laws concerning alcohol use and are expected to conduct themselves in a manner consistent with university expectations. The university will not tolerate the unlawful manufacture and/or illegal purchase, consumption, possession, or distribution of alcohol to or by any student. Binge drinking is the modern definition of drinking alcoholic beverages with the primary intention of becoming intoxicated by heavy consumption of alcohol over a short period of time. Binge drinking is done as a method of self medication. A "binge," is often taken to mean consuming 5 or more standard drinks for a male or 4 or more drinks for a female, in about two hours for a typical adult. Clarke University, area universities and the City of Dubuque are working together to eliminate binge drinking. The practice of binge drinking presents a serious health issue for university students.

Local and federal laws prohibit the unlawful use, manufacture, possession, control, sale and dispensation of any illegal narcotic or dangerous drug. These laws carry penalties for violations, including monetary fines and imprisonment. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance by a student on University property or as any part of a University-sponsored program on or off campus is strictly prohibited.

UNIVERSITY CLOSINGS

Announcements about Closings for Inclement Weather

When snow and ice strike, official Clarke University communication methods are the most reliable source of information for closing details. The primary method of weather notifications will be Clarke's Campus Alert System. Through this system, all students will automatically receive an e-mail about the closing. Through MyInfo, students can also choose to receive a cell phone call and/or text message to alert them of the closing. Announcements will also be posted on Clarke's weather announcement Web page at www.clarke.edu/weather.

In addition to these sources, announcements are sent to local television and radio stations.

When bad weather occurs, the schedule of extracurricular events may be affected as well. The vice president of the area responsible for the event will be responsible for determining whether or not an event will be held. This information will be available at www.clarke.edu/weather.
